

Guidelines for First Year Report & Work Plan

- ✓ On the first page, state your name, the names of your supervisors, and the topic of your research project
- ✓ The "First Year Report" should comprise about 10 pages.
 - Describe the experiments, simulations, or other research work that you have done during the first year of your research studies together with the results obtained
 - Then describe the conclusions that you could draw from the results obtained during the first year.
- ✓ The "Work Plan" for remaining part of PhD project should comprise about 5 pages.
 - Start with a description of the important research question that you plan to answer during the remaining time of your research project.
 - In the following part give a detailed plan of how you want to address the questions and describe the experiments, simulations, or other studies that you are planning to do together with estimates.
 - At the end of the work plan add a summary of the schedule for the remaining time in form of a Gantt chart. (Include also the time needed to prepare the thesis.)
 - Ppt foils you used for your first year presentation can also be included in the first year report.
- ✓ Please, upload the First Year Report plus the Minutes of the First Year Supervision Meeting after appr. one year to the Moodle Course called
